Identifying Solutions

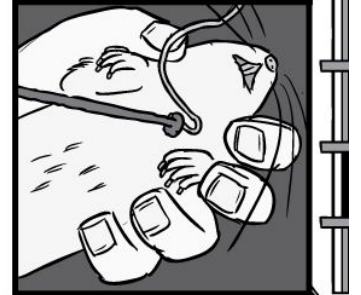

Review the following link about the “Rat Park” Experiment

<http://www.stuartmcmillen.com/comic/rat-park/#page-1>

In the 1950s and 60s, the scientific understanding of chemical addiction came from rats.

The rats were surgically connected to self-injection apparatus...

1. Experiments can be very long and contain an extensive amount of information. How did Stuart McMillen make this experiment accessible to more people?
2. How could the updated ‘Rat Park’ study results have impacted the decision making around the Federal Crack and Cocaine Laws?
3. How can you use your art, creativity, and skills to educate others about important issues?
4. What kinds of issues would you want to focus on?
